Revision Date: 7/9/2026

FDA Status

Pinnacle's 1403N polypropylene as marketed by Pinnacle Polymers Company, in natural, uncolored pellet form complies with all of the appropriate requirements of CFR Title 21, Part 177, Subpart B, Section 177.1520 (c) 1.1a, entitles "Olefin Polymers" of the Food Additives Amendment of 1958 to the United States Food, Drug and Cosmetic Act of 1938.

It is, however, the responsibility of the customer to determine that the products fabricated from this material are acceptable to the FDA for use in their intended applications.

Pinnacle Polymers makes no warranty of merchantability and there is no warranty that materials shall be fit for any particular application. Users should make their own independent evaluation whether a Pinnacle product is suitable for a specific end-use. No one is authorized to assume any warranties on behave of Pinnacle without written agreement from an authorized Pinnacle employee. Pinnacle limits it liability to either replacement of non-performing material, or payment not to exceed the cost of the polypropylene supplied plus transportation charges
