

Chateau+ Bloom Sand Natural

Uniquely small. Exceptionally strong.

Elevate your interior with a timeless herringbone style. The 15 natural wood designs and uniquely small and narrow planks of our Chateau+ collection are perfect for recreating the beloved parquet herringbone style that's lasted centuries. Elevate any room with this premium-quality laminate floor that's highly scratch resistant, **100% water resistant**, and perfectly suitable for commercial settings thanks to their high abrasion class and a ten year commercial warranty.

A 100% water-resistant floor. The surface of our Chateau+ laminate planks are unable to absorb any liquid, making them fully water resistant. Combined with our **hydro+ water-repellent coating** that further protects the edges of the planks, a compact locking system, and specialised hydro+ accessories used around the perimeter of the room, you've got yourself a 100% water-resistant floor that can withstand liquids and spills.

BERRY ALLOC

/ chateau+.

When classy meets contemporary.

water resistant herringbone laminate.

Timeless elegance.

Originally found in luxurious castles and stately manor houses, herringbone is a tried-and-true style that has more than withstood the test of time. Having taken the leap to contemporary living rooms, this floor remains the statement piece in each room.

Classy and sassy, Chateau+ mixes modern and traditional into a unique eye-catcher that is **100% water resistant** thanks to our **pioneering hydro+ technology**. This water repellent coating further protects your floor around the edges of each plank and is able to withstand all kinds of liquids.

Add a touch of elegance to your office, hotel rooms or restaurant with Chateau+! This floor is also ideal for high-traffic areas featuring a **commercial usage class of 33**, abrasion class 5 and a ten-year commercial warranty.

New

Quick & easy installation.

Compared to other locking systems in the market, **OmniLoc** ensures a beautiful, flawless floor due to its incredible locking strength for improved stability. With easy installation, even in room corners, OmniLoc offers convenience for DIY enthusiasts. You can even pair up and start the installation in the middle of the room. Plus, for professional installers we offer a specially developed installation tool (ref. 63003584) for quick and easy installation of large surfaces.

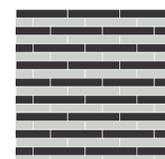

Scan the QR code to watch the installation video.

Pick a pattern.

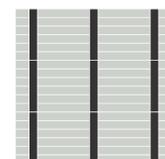

Chateau+ offers four different installation patterns: time to get creative and choose the style that suits you best. Check the installation instructions on how to best achieve these patterns. Mix colors to create your very own and unique herringbone floor. All decors are also available in standard plank size, so you can install Chateau+ in the living room and standard plank Ocean 8 V4 in the kitchen.

Hydro+ kit

To fully protect your Chateau+ floor around the edges of the room, you'll need the right accessories for a **100% water-resistant installation**. Our hydro+ kits make sure your floor is able to expand and remain water resistant at the same time. (ref. 63002897)

Laminate Cleaner

Make those moments of joy on your new floor last longer by regularly using our BerryAlloc laminate cleaner. It's suitable for **first-time maintenance as well as regular use** and will provide extra protection for your floor. Plus, it's biodegradable and has a pleasant fragrance. All it requires is one capful to a bucket of water. (ref. LC1000)
