

**ACT**<sup>TM</sup>  
SPORTS

Act in line with  
your dreams

# live, work, play, act.

Sports make the world a better place. There, we said it. They bring people together, arouse passion, improve physical and mental health, create a sense of belonging, spark euphoria, enhance life skills ... The list goes on and on. And we're here to help people **LIVE** life to the fullest. Our mission: getting sports enthusiasts to act in line with their dreams.

> p. 4 – 9

Our teams in Belgium, Spain, and US make the dream **WORK** with next-generation sports turf systems. The common thread: we always look for the most natural, comfortable, safe, and consistent playing experience. All wrapped up in sustainable solutions. Take a look at how we tick all these boxes and what that means for you.

> p. 10 to 19

Game on, let's **PLAY**. Whether you're into padel, football, hockey, rugby, tennis, fitness, or something else, thousands of people across Europe and North America enjoy our sports turf systems every day. Discover why they wouldn't have it any other way.

> p. 20 to 43

It's never too late to **ACT** in line with your dreams. Thinking about starting a padel club? Ready to serve more members at your football club? Looking for a water-free FIH-approved hockey pitch? Or in need of a touch of green in your gym? Get inspired by our references and reach out to discuss your own dreams.

> p 44. to 51

# live

Sports make life worth living. They contribute to an active and healthy lifestyle. They connect communities and individuals. And they allow both enthusiasts and professionals to enjoy the value of team spirit, push their limits and – perhaps most importantly – have fun.

# Act Sports, nice to meet you.

Our passion for sports is what drives us. With 10,000+ padel courts, 250+ football pitches and 100+ projects for hockey, tennis, rugby, and other sports clubs in Europe, Asia, and North America, chances are that we're just around the corner.

Just like you, we love to see athletes act in line with their dreams.

- To put a smile on people's faces.**
- To keep everyone safe.**
- To create unforgettable experiences.**
- To set the scene for great performances.**

Our solution to do so is premium sports turf systems – plain and simple. On the next pages, you'll learn what exactly we mean by premium, from world-class certifications to raising the bar in sustainability.

And if you feel the connection, all that's left for us to do is to meet.

## Leaving a positive mark on the sports industry

Values are like fingerprints. Nobody's are the same, but you leave them on everything you do. That's why we share ours with you:

- 1 WE HELP YOU WIN**  
We support our partners in the best possible way, helping them bring their A game. We are proactive, responsible and open to complaints. It's how we improve.
- 2 WE ARE ONE TEAM**  
We are family. To each other, to our partners and to every single sports club. No matter the score, we are there for them. One team, one dream.
- 3 GAME ON, FOCUS ON**  
Performance is everything. Together, we rise to every challenge. We know exactly where we are going. Always focused. Always with our eyes on the goal.
- 4 SPORT IS OUR RELIGION**  
We eat, sleep, and breathe sports. Together with our partners, we share a passion for every game. We are the biggest fan of sports clubs and athletes.
- 5 WE SEE THE IMPOSSIBLE**  
The game is always changing. We strive to stay one step ahead, adapting to evolutions and offering new experiences. Rising to every challenge along the way.

# Qualified to get the job done

At Act Sports, we have the reputation of being a perfectionist. That means we can't see a quality certification without going for it. But we've learned to live with it, because for you, it means all options are on the table.

## CERTIFICATIONS

Act Sports is recognized by a number of leading, international sports organizations, including FIFA (football), FIH (hockey), World Rugby (rugby) and ITF (tennis). These acknowledgements underpin the premium quality, outstanding playing experience, and unbeatable durability and safety of our sports solutions.

## MEMBERSHIPS

Together with industry partners and other leading sports-system manufacturers and suppliers, we're part of several international sports communities, including SAPCA, Synthetic Turf Council, and Clúster Internacional Pádel.

# work

Google 'sports turf systems' and you'll find yourself in an avalanche of brands claiming to have the right solutions for you. Each of them will say they'll take your warm-ups, games, sets, and matches to the next level. How to decide? Well, we dare you to find a brand that ticks as many boxes as we do.

# Act Sports: 7 reasons why

1

## THE WIDEST RANGE OF SPORTS TURF SYSTEMS OUT THERE

With **60+ distinct woven and tufted sports turf systems available** in various configurations, we cater to just about any need you might have. A FIFA-certified system with foam shock pads? Sure. Woven hybrid turf in which natural grass can grow? You bet. A blue or green padel court for international competitions? Yes, sir. Rather have organic or even zero infill? You name it.

### Let us guide you

Not sure about the perfect match? Use our online product selector or reach out for advice via [www.act.sport](http://www.act.sport)

## 2

### SPORTS TURF SYSTEMS MADE IN WORLD-CLASS FACILITIES

With Act Sports, you don't need to wonder about the origin of your sports turf systems. **We have three ISO 9001 and ISO 14001-certified production locations in Europe and one in the United States, all meeting the highest standards.** Even more, by being part of a vertically integrated industrial group (B.I.G.), we fully control every step of the production process. For example, we create our own high-performance yarns in terms of shape and composition.

#### Safety, our number-one priority

As an outspoken talent-first organization, we pull out all the stops to make sure that our facilities meet the highest safety standards and foster a zero-accident culture. And we even take safety a step further. For our employees, it's safe to speak up, it's safe to experiment, it's safe to shape their own career path, etc.

## 3

### SPORTS TURF SYSTEMS THAT'S MADE TO LAST

Will the ball still roll the same after 4 years? Will the surface be as firm and consistent? Will the color fade because of UV radiation? Will there be visible wear and tear? All fair questions, so we continuously engineer our sports turf systems to outperform the market. With success: leading sports labs all give their stamp of approval after rigorous testing. Act Sports is a safe bet if you're looking for lasting solutions.

#### 100,000+ Lisport cycles

Some of our systems last over 100,000 cycles in the Lisport durability test. Not bad if you know that 20,000 cycles already equal 7-8 years of playtime.

# 4

## FULLY RECYCLABLE SPORTS TURF SYSTEMS

Sustainability is not only about designing systems that last, but also about making sure that your sports turf systems gets a second life after it has made the dreams of your club's players and fans come true. That's why we prioritize organic infill, as well as non-infill and woven products. For example, the latter no longer require latex or polyurethane in production, making them ideal for recycling. And with a network of trusted partners, we make sure the sports turf systems actually gets recycled.

### When waste becomes sports turf systems

Our sports turf systems featuring Recyarn contain internal waste. This way, less virgin materials are required for you to act in line with your dreams. After all, waste is only waste if we waste it, right?

# 5

## THE SAFEST SPORTS TURF SYSTEMS FOR PLAYERS

With a data-driven approach, in which we involve universities (e.g. Ghent University and Kennesaw State University) and other partners (e.g. shoe and stud manufacturers), **Act Sports creates surfaces that mimic natural grass and reduce injuries.** Whether we're talking about shock absorption, fatigue prevention, foot stability, skin friendliness, we turn scientific injury data into innovative turf solutions.

Benchmarking results confirm that our sports systems replicate the performance, quality and safety of natural grass in stadiums all around the world.

**1,300,000+**

annual sports-related emergency visits for children under 19 show the importance of player safety.

# 6

## SPORTS TURF SYSTEMS INSTALLED TO PERFECTION

Through a local network of certified installers and contractors, you always have access to someone who can provide hands-on assistance every step of the way. They can be your initial sounding board, provide all-round advice, handle the installation, and follow up with maintenance guidelines and support. This way, you'll get the most out of your investment and won't have to worry about a thing.

### Did you know that ...

all our installers are trained and certified by Act Sports and have direct access to our sports turf systems specialists to offer you the best possible service?

# 7

## INNOVATIVE SPORTS TURF SYSTEMS TO STAY AHEAD OF THE GAME

The best way to predict the future is to create it. To illustrate, Act Sports offers a unique and proprietary range of woven hybrid turf systems – available in lay-and-play format, as well as in situ.

- We work closely with FIFA /FIH / WR and National Federations to meet performance demands of the players
- We work closely with our component and design partners on performance & sustainability
- We have our own inhouse R&D Centre where our engineers test systems to meet your project and performance criteria

Through innovative projects like this, we drive the transition towards sustainable and circular sports systems, while at the same time exceeding performance needs.

ACT IN LINE WITH YOUR DREAMS

# play

Our premium artificial turf sports systems let athletes of any level excel at what they love most, whether that's football, padel, hockey, rugby, tennis, or any other discipline. Zoom in on your preferred sport to get the ins and outs.

# Football

For the #1 sport in the world, only the very best surface is good enough. With Act Sports by your side - and under your players' feet - you're guaranteed to score a hat trick!

## FIT FOR TOP-LEVEL COMPETITIVE FOOTBALL

Our tufted and woven football systems guarantee consistent, high-quality play. They're made to last, under intensive use and all-weather conditions, and covered by a long-term warranty.

### >50 hours per week

Or more than 5 hours a day. Every day. That's right, our sports turf systems can be used 3 times more than natural grass, which only lasts 600 to 800 hours a year.

## FIFA LICENSEE

Act Sports is a FIFA Licensee. All our football systems undergo strict testing to obtain FIFA Quality (durability and safety) or FIFA Quality Pro (first-class performance, accuracy and safety) certifications.

## YOUR FIELD, YOUR TOUCH

Woven or tufted? Infill or non-infill? Artificial turf or a hybrid solution? You name it, we'll fix it! Our systems are compatible with leading shock pads and e-layers such as BrockFill, and infill vendors like Amorim. If you're feeling really bold, custom pitch edging is also an option.

# Padel

In Spain, the bakermat of padel, we're designing the next generation of padel systems, so you can serve, smash, lob, and volley your way to victory on the best-in-class playing surface.

## ENGINEERED FOR EXCELLENCE ON ALL FRONTS

Comfort, safety, or durability? With Act Sports, you don't have to compromise. Our padel systems provide exceptional foot stability and ball responsiveness, and are easy on the joints. Plus, thanks to integrated UV protection technology, your court will stay in pristine condition for many years to come.

**+10,000**

Act Sports padel fields worldwide

## SURFACES FOR DIFFERENT PLAYSTYLES

We offer **3 dedicated ranges** to match your playstyle:

- Fibrillated tape sports turf systems for faster play
- Straight monofilament sports turf systems for slower play and intense use
- Texturized monofilament sports turf systems, combining the best of both worlds

## PART OF CLÚSTER INTERNACIONAL PÁDEL

Clúster Internacional Pádel is a **global initiative** that unites producers, distributors, and vendors of padel products. The cluster defends the interests of its members, promotes the practice of racket sports, and stimulates quality, development, and sustainability.

# Hockey

Speed, agility, technique, strength... hockey is one of the most demanding sports out there. It's best played on a field that takes all these skills into account - and that's exactly what Act Sports does.

## BETTER, FASTER, SAFER, STRONGER

With their highly resilient yarns, short, dense pile height, and flat and firm surface, our hockey systems optimize pace and technique. Plus, they enhance footing and stick & ball surface interaction, support aerial and 3D skills, and keep your joints and muscles in prime condition. What's not to like?

## FIH PREFERRED SUPPLIER

**Our hockey systems are designed to comply with FIH global and national classification standards.**

They are independently tested by an FIH Accredited Test Institute to ensure they meet the requirements of the FIH Quality Program for Hockey Turf.

## SAND- OR WATER-BASED, THE CHOICE IS YOURS

**Pick a hockey system that suits your playstyle:**

- Sand-filled systems for more flexibility and multi-purpose use
- Sand-dressed systems (less sand) for fast-paced, modern play
- Water-based systems (no sand) for optimal stick & ball surface interaction

We're developing water-free hockey systems that meet all requirements for club, national, international, and Olympic games (from Paris 2024 onwards).

# Rugby

In a full-contact sport like rugby, the combination of power, pace, and agility makes for a tough, injury-prone game. For the best player experience, you'll need a resilient surface that's suitable for heavy use but also provides a safe landing at impact. Our tufted and woven rugby systems deliver world-class fields for all levels of play.

**Act Sports is a World Rugby Preferred Turf Producer.**

Our rugby systems meet international performance and safety standards for training, competition, and community activities.

SPORTS

## ROBERT-CÉSAR STADIUM

FRANCE

The total renovation of the Robert-César stadium - a household name on Île-Saint-Denis - has further boosted the island's already vibrant sports scene.

The showpiece: an eco-friendly, 100% recyclable football field featuring our certified, woven 3G #XtremeTurf, professionally installed by AGILIS.

## ARENAL BELGIUM

To put padel on the map in Belgium and the Netherlands, Act Sports joined forces with padel pioneer Arenal. For their 8-court facility in Kerkrade, we supplied our #Score Royal Blue padel turf. Next up are dozens of other Arenal facilities throughout Belgium and the Netherlands.

**STADDIJK NIJMEGEN**  
NETHERLANDS

The sports complex of Hockey Club QZ in Staddijk, Nijmegen received 3 brand-new fields, 2 of which feature our FIH-certified hockey systems. Sallandse United selected our #XtremeTurf SD and NFH for their 2 new fields, one sand-dressed, the other water-based.

**CLONTARF RUGBY**  
**ALFIE BYRNE PARK**  
IRELAND

Founded in 1876, Clontarf FC is one of the oldest rugby clubs in Ireland who play their home matches at Castle Avenue - a 5,000 capacity stadium. To complement its main pitch, a new, high-performance rugby turf field near Castle Avenue was constructed. They opted for Act Sports' #Fusion, a high-end rugby turf system that benefits player safety and comfort as well as enhancing field longevity.
